

Fig. 1

FIG. 2 is a schematic diagram of a user interface for a question and answer system. The interface includes a menu bar 110 with options File, Edit, and View. A toolbar 120 contains a button 122 for asking a question. A text input field 125 is provided for typing a question. The main content area 108 is for displaying the question and answer. The entire interface is labeled 100.
